User Journey

Make It Short

Main Screen

AFDAL app

AFDL is a cross-platform Flutter application that helps users discover nearby restaurants, hotels, cafes, and other service providers through targeted ads and promotional listings. Businesses can create profiles, upload deals, and advertise their services to a wider audience. Users can browse by category, location, or rating, and get real-time updates on the latest offers. With a sleek interface, integrated maps, and push notifications, AFDL connects local businesses with customers quickly and efficiently.
